Introduction to the User Guide

This user guide is intended for district and school personnel and describes how authorized users may access reports in the FSA Reporting System.

This introduction provides an outline of the structure and organization of the user guide and the stylistic features used in the document.

Organization of This User Guide

This user guide provides information about all of the FSA Reporting System’s features and includes instructions for viewing reports.

This user guide is organized as follows:

- **Overview of the FSA Reporting System** provides a brief overview of the system and the necessary user roles for accessing available reports.

- **Accessing the FSA Reporting System** includes instructions on how to log in and log out of the system and switch between different FSA systems.

- **Viewing Reports and Files** includes instructions on how to access reports in the FSA Reporting System.

- **User Support** provides the FSA Help Desk information.

Document Conventions

*Table 1* describes the key symbols and elements used in this guide.

<table>
<thead>
<tr>

<tr>
<td><strong>Italics</strong></td>
<td>Italic indicates a field name or a drop-down list selection.</td>
</tr>
</tbody>
</table>
Overview of the FSA Reporting System

The FSA Reporting System provides score data for each FSA test, which includes Grades 3–10 English Language Arts (ELA), Grade 10 ELA Retake, Grades 3–8 Mathematics, and Algebra 1, Algebra 1 Retake, and Geometry End-of-Course assessments. Scores for initial and late reporting releases are available to users in the FSA Reporting System.

System Requirements

The FSA Reporting System can only be accessed using supported operating systems and web browsers. Information about the supported operating systems and browsers is outlined on the Supported Systems & Requirements page on the FSA Portal.

Data files, such as the State Aggregation Results (SAR) File and District Aggregation Results (DAR) File, are encrypted and password protected. After downloading the files, state- and district-level users must use a password to open the files. Using the built-in functionality in Windows to extract the ZIP files may not work as the default program does not support password-protected files. To extract and view the data files, users must have additional software that supports encryption installed on a local computer, such as WinZip Enterprise or 7-zip (or similar Zip utility). Once files are unzipped with a password and saved to the computer, a password will no longer be necessary to access the files.

Understanding User Roles and Permissions

Access to the reports provided in the FSA Reporting System depends on each user’s role, school, and district associations. These roles are assigned in the Test Information Distribution Engine (TIDE) website. For example, district users can view data for all schools in their respective district(s); school users can view data only for their school(s).

Table 2 describes the user roles in the FSA Reporting System and the reports that are accessible to each applicable user role.
Table 2. User Roles and Access in the FSA Reporting System

Accessing the FSA Reporting System

This section explains how to log in and log out of the FSA Reporting System and how to switch between the different FSA systems.

Logging in to the FSA Reporting System

To log in to the FSA Reporting System, you must have an authorized username and password. You will use the same username and password to access all FSA systems (e.g., FSA Reporting System, TIDE, and TA Interface). If you already have a username and password for TIDE, you will use the same information to log in to the FSA Reporting System.

If you have not yet received your login information for FSA systems, contact your school or district assessment coordinator. He or she can create an account for you to access the FSA Reporting System.

Note: Do not share your login information with anyone. All FSA systems provide access to student information, which must be protected in accordance with federal privacy laws.

To log in to the FSA Reporting System:

1. On the FSA Portal (www.FSAAssessments.org), click the FSA Reporting System card. The Login page appears.

   You can also access the FSA Reporting System directly at the following URL: https://FSAReports.airast.org.

2. Enter your email address and password in the respective text boxes, and then click Secure Login. The Home Page (see Figure 4) appears.
About Usernames and Passwords

Your username is the email address associated with your account in the FSA Reporting System.

Caution: Important Information Regarding Your Password

If you are a user who has recently been added to TIDE, you should have received an activation email from AIRAST-DoNotReply@air.org that contains a link that takes you to the Reset Your Password page in TIDE where you can set up your password to log in to TIDE and other applicable AIR systems. This link expires 15 minutes after the email was sent. The first time you log in, you will be prompted to select a new password.

If your first temporary link expired or you forgot your password

On the login page, click Forgot Your Password? and then enter your email address in the Email Address field to reset your password. You will receive an email with a new link to reset your password. This link expires 15 minutes after the email was sent.

Did you not receive an email containing a Reset Your Password link?

Emails come from AIRAST-DoNotReply@air.org. Check your spam or junk folder to make sure your email provider did not categorize it as junk mail or spam. If you still do not have an email, contact your school assessment coordinator to make sure you were added to TIDE. Only users who have been added to TIDE will receive an account email with a link to set their password.

Additional Help

If you are unable to log in, contact the FSA Help Desk (1-866-815-7246 or fsahelpdesk@air.org) for assistance. You must provide your name and email address.

Note: For security reasons, users will need to update their password in TIDE before logging in to the FSA Reporting System for the first time every school year. On the TIDE Login page there will be a prompt: First Time Login This School Year? under which users should click Request a new one for this school year. Users should enter their email address used in TIDE in the prior year to reset their password. Users will receive an email with a new link to reset the password. This link expires 15 minutes after the email was sent.
Switching between FSA Systems

After you have logged in to an FSA system, you can navigate between the following systems:

- FSA Reporting System
- TIDE
- Test Delivery System (TDS) – TA Practice Test
- Test Delivery System (TDS) – TA Interface (Operational)

**Note:** Access to these systems and their features is dependent on your user role. Additionally, while users will be able to navigate into TDS, the navigation menu will not appear in TDS. This is by design so that test sessions are not closed inadvertently.

To switch between FSA systems:

1. Navigate to the drop-down menu at the top left corner of your browser window.

   ![Figure 3. FSA Systems Drop-Down Menu](image.png)

2. Select the system you want to use from this menu. You will be directed to the selected application and will not have to log in again.

Logging out of the FSA Reporting System

The FSA Reporting System contains students’ personally identifiable information. Be sure to log out of the system to ensure that unauthorized users do not have access to this information. You will be logged out of the system automatically after 30 minutes of inactivity.

To log out of the FSA Reporting System:

- Click **Logout** at the top right-hand corner of the page (see Figure 3).
Viewing Reports and Files

This section provides instructions on how to access the school-, district-, and state-level reports available in the FSA Reporting System.

Accessing Score Reports

You can access all reports from the **Home Page**.

![Home Page](image)

To access a report:

1. From the **Year** drop-down, select a testing year (e.g., 2019-2020).
2. From the **Administration** drop-down, select a test administration (e.g., *Spring FSA ELA Retake*).

![Figure 6. Administration Drop-Down](image)

3. From the **Subject** drop-down, select the subject you wish to view (e.g., *ELA*). The subjects available in the menu depend on the selected administration.

![Figure 7. Subject Drop-Down](image)

4. From the **Type** drop-down, select the type of report you want to generate (*PDF/Excel Reports* or *Data Files*). Data files are only available for district users.

![Figure 8. Type Drop-Down](image)

5. To generate PDF/Excel Reports, follow the additional steps in the [Generating PDF/Excel Reports](#) section. To generate Data Files, follow the additional steps in the [Generating Data Files](#) section.
Generating PDF/Excel Reports

If PDF/Excel Reports is selected in the Type drop-down (see Figure 8), follow the steps below to generate the desired report.

1. From the Report drop-down, select the report you want to generate (e.g., State Summary or School Report of Students). The options listed in the Report drop-down list depend on your user role. For example, if you are a School Administrator, the School Report of Students for District will not be listed.

   Figure 9. Report Drop-Down

2. Based on the administration (see Figure 6), subject (see Figure 7), and report (see Figure 9) selected, additional fields may be displayed:

   Figure 10. Grade Drop-Down
3. In Spring 2020, On-Demand Student Reports will also be available for download. An additional FLEID field will be displayed.

![Figure 11. FLEID Required Field](image)

a. **District**: If this drop-down is displayed, select the district whose students you want to include in the report. The drop-down list will only display the districts with which you are associated.

b. **School**: If this drop-down is displayed, select the school whose students you want to include in the report. The drop-down list will only display the schools with which you are associated.

c. **Wave**: If this drop-down is displayed, select the wave of results you wish to view (e.g., *Initial* or *Late Reporting Release 1*). Depending on the administration, as many as three Late Reporting Releases may be listed. This field will only be displayed for these reports: School Report of Students for District and School Report of Students. The **Wave** drop-down will only appear when there are Initial and Late Reporting Release results to display.

d. **Grade**: If this drop-down is displayed, select the grade or grade band you wish to include in the report.

e. **FLEID**: If this required field is displayed, type in the FLEID of the student whose report you wish to see. This will only be displayed with the On-Demand Student Reports.

4. Complete one of the following options:

   o To generate a PDF of the report, click **PDF Report**. See **Figure 12** for a sample School Report of Students PDF report.

   o To generate the report in Excel format, click **Excel Spreadsheet**. See **Figure 13** for a sample School Report of Students Excel report.
Generating Data Files

If *Data Files* is selected in the *Type* drop-down (see Figure 8), follow the steps below to generate the desired report.
Passwords are required to open the data files. The password provides an additional layer of security for your district’s student results data. The PDF and Excel reports are generated from data stored in an encrypted database in real time when the button to generate a report is clicked, so they are not at risk of being compromised. The encryption and password requirements provide additional protection to ensure your data remain secure.

---

**Note: Important Information Regarding Data Files**

- The data files are provided in a Zip file and are encrypted and password-protected. To extract and view the data files, you need to have additional software that supports password encryption installed on your computer, such as WinZip Enterprise or 7-zip.
- The data files are bundled and include the State Aggregation Results File (SAR), District Aggregation Results File (DAR), and District Summary Results File (DSR).

---

1. From the **District** drop-down list, select the district whose data files you wish to download. The drop-down list will only display the districts with which you are associated.

   ![Figure 14. Selection Field for Downloading Data Files](image)

2. Click **Download**. The Zip file will be downloaded to your computer.

3. Click **Reveal Password** to view the password that you will enter when you extract the downloaded data file.

   ![Figure 15. Sample Password for Zip File](image)

4. Make a note of or copy the password and click **OK** to close the password pop-up window.

5. Locate the downloaded Zip file on your computer and open it.
6. Enter the password in the password prompt that appears when you unzip or extract the files and click OK.

7. Open the extracted file to view the data.
Note:

- Once the files have been unzipped and saved locally, a password will no longer be required to open the files.
- If you save the Zip file to your computer without unzipping the file, and you do not retain the password required to open the Zip file, you can return to the FSA Reporting System and obtain the password for that report as indicated in Step 3.
Appendix A. User Support

If this user guide does not answer your questions, please contact the FSA Help Desk.

The FSA Help Desk is open Monday–Friday from 7:00 a.m. to 8:30 p.m. Eastern Time (except holidays or as otherwise indicated on the FSA Portal).

FSA Help Desk

Toll-Free Phone Support: 866-815-7246
Email Support: fsahelpdesk@air.org

Emails to the Help Desk will be automatically logged and answered within one working day (typically sooner). Urgent requests will be given priority.

To help agents effectively assist you with your issue or question, please be ready to provide the FSA Help Desk with detailed information that may include the following:

- Any error messages that appeared.
- The device, operating system, and browser information that you are using.
- Information about your network configuration.
- The steps that you took before the issue occurred.
