

DRAFT

Grade 6
English Language Arts
Item Specifications

The contents of the draft Florida Standards Assessments (FSA) *Test Item Specifications (Specifications)* are based upon the Florida Standards and the Florida Course Descriptions as provided in [CPALMS](#). The *Specifications* define the content and format of the test and test items for item writers and reviewers. Each grade-level and course *Specifications* document indicates the alignment of items with the Florida Standards and provides stakeholders with information about the scope and function of the FSA.

Item Specifications Definitions

- **Also assesses** refers to the standard(s) closely related to the primary standard statement.
- **Assessment limits** define the range of content knowledge and degree of difficulty that should be assessed in the assessment items for the standard(s).
- **Sample response mechanisms** describe the characteristics of various methods for responding to test items.
- **Task demand** describes various types of items that could be written for the standard(s) assessed.
- **Text types** define the genre of texts to be used with the standard(s) assessed.

Florida Standards Assessments Technology-Enhanced Item Descriptions

The Florida Standards Assessments are composed of test items that include traditional multiple-choice items, items that require students to type or write a response, and technology-enhanced items (TEI). Technology-enhanced items are computer-delivered items that require students to interact with test content to select, construct, and/or support their answers.

Currently, there are eight types of TEIs that may appear on FSA English Language Arts assessments. For Grade 3 assessments, which will be paper-based tests in 2015-2017, and for students with an IEP or 504 plan that specifies a paper-based accommodation, TEIs will be modified or replaced with test items aligned to the same standard/reporting category that can be scanned and scored electronically.

The various TEI item types are described below, including the percentage of each computer-based test that will be composed of TEIs.

For samples of each of the item types described below, see the [FSA Practice Tests](#).

Percent of Computer-Based Test That Is Composed of Technology-Enhanced Items	
Grades 4–10 ELA*	25%–50%

*Grade 3 ELA tests, once computer based, will also be composed of 25%–50% TEIs.

Technology-Enhanced Item Types for English Language Arts

- 1. Editing Task Choice** - The student clicks a highlighted word or phrase, which reveals a drop-down menu containing options for correcting an error as well as the highlighted word or phrase as it is shown in the sentence to indicate that no correction is needed. The student then selects the correct word or phrase from the drop-down menu. For paper-based assessments, the item is modified so that it can be scanned and scored electronically. The student fills in a circle to indicate the correct word or phrase.
- 2. Editing Task** - The student clicks on a highlighted word or phrase that may be incorrect, which reveals a textbox. The directions in the text box direct the student to replace the highlighted word or phrase with the correct word or phrase. For paper-based assessments, this item type will be replaced with another item type that assesses the same standard/reporting category and can be scanned and scored electronically.
- 3. Hot Text** -
 - a. Selectable Hot Text** - Excerpted sentences from the text are presented in this item type. When the student hovers over certain words, phrases, or sentences, the options highlight. This indicates that the text is selectable (“hot”). The student can then click on an option to select it. These items may have one or two parts. In a two-part hot text item, Part A might ask the student to make an analysis or an inference, and Part B might require the student to use the text to support the answer in Part A.

In other cases, the two parts might function independently. For paper-based assessments, a “selectable” hot text item is modified so that it can be scanned and scored electronically. In this version, the student fills in a circle to indicate a selection.

- b. **Drag-and-Drop Hot Text** - Certain words, phrases, or sentences may be designated “draggable” in this item type. When the student hovers over these areas, the text highlights. The student can then click on the option, hold down the mouse button, and drag the option to a graphic organizer or other format. For paper-based assessments, drag-and-drop hot text items will be modified or replaced with another item type that assesses the same standard/reporting category and can be scanned and scored electronically.
4. **Open Response** - The student uses the keyboard to enter a response into a text field. These items can usually be answered in a sentence or two. For accommodated paper-based assessments, this item type may be replaced with another item type that assesses the same standard/reporting category and can be scanned and scored electronically. (Please note that while the Grade 3 FSA ELA will not be administered online until 2017-18, it is possible to include the Open-Response item type for this paper-based assessment.)
5. **Multiselect** - The student is directed to select a specific number of correct answers from among the options provided. These items are different from multiple-choice items, which allow the student to select only one correct answer. These items appear in the online and paper-based assessments.
6. **Evidence-Based Selected Response (EBSR)** - In this two-part item, the student is directed to select the correct answers from Part A and Part B. Typically Part A is multiple-choice, whereas Part B may be either multiple-choice or multiselect. Part A often asks the student to make an analysis or an inference, and Part B requires the student to use the text to support the answer in Part A. These items appear in the online and paper-based assessments.
7. **Graphic Response Item Display (GRID)** - The student may select words, phrases, or images and use the drag-and-drop feature to place them into a graphic organizer or other format. For paper-based assessments, this item type may be replaced with another item type that assesses the same standard/reporting category and can be scanned and scored electronically.
8. **Table Match** - This item type presents options in columns and rows. Options may include words, phrases, sentences, quotations, line/paragraph/passage numbers, or images. The student is directed to click a box that matches a correct option from a column with a correct option from a row. Typically, there is only one correct option per row or column, though the number of correct answers may vary. These items appear in the online and paper-based assessments. For paper-based assessments, the item is modified so that it can be scanned and scored electronically. The student fills in a circle to indicate the correct selection.
9. **Multimedia** - Technology-enhanced content may include multimedia elements such as audio clips, slideshows, or animations. Multimedia elements may appear within passages (stimuli) or test items. Any of the item types described above may be used to assess the multimedia content. For paper-based assessments, multimedia content may be modified or replaced by paper-based items or stimuli that assess the same reporting category. Beginning in 2015-16, listening items (audio clips) may be included in the paper-based, accommodated version of the ELA Reading assessments in Grades 4–10. (For Grade 3, listening items will be included when the assessment is administered online.)

Reading Stimuli Guidelines

Overall Description

A stimulus may consist of one or more texts. The texts may be informational or literary and may cover a wide array of topics. Multimedia elements may include audio presentations, slideshows, or graphical elements.

Stimulus Attributes

The complexity of the texts used as stimuli should be accessible for the applicable grade. Text complexity analysis incorporates a variety of factors. Quantitative measures are one element of text complexity evaluation, but they are not the sole determinant of grade-level appropriateness. Other factors, such as purpose, structure, and language complexity, are also considered. In choosing the text(s), qualitative and quantitative dimensions of text complexity must be balanced by the task considerations required of the reader. Graphics such as infographics, photographs, tables, and diagrams may be included with the stimuli. The graphics used, however, must be purposeful and should supplement the student’s understanding of the topic. During the text review process, Florida educators use professional judgment and experience to determine whether the reading level of each selection is suitable for the grade level.

Texts used as stimuli should be interesting and appealing to students at the grades for which the selections are intended. They should be conceptually appropriate and relevant and should reflect literary or real-world settings and events that are interesting to students and are not limited to classroom or school-related situations. Texts with controversial or offensive content should not be included. Confusing or emotionally charged subjects should also be avoided. References to trademarks, commercial products, and brand names should be checked by the contractor’s legal department for permission to use. If there is any question about the accuracy of content, the Florida Department of Education (FLDOE) may require at least two additional sources to verify the information in the text.

The length and complexity of texts should vary within each grade-level assessment. The table below suggests an approximate word count range for a text or text set.

Grade	Range of Number of Words
3	100–700
4	100–900
5	200–1000
6	200–1100
7	300–1100
8	350–1200
9	350–1300
10	350–1350

English Language Arts Florida Standards Grade: K12*

Strand LAFS.K12: Reading

Cluster 1 LAFS.K12.R.1: Key Ideas and Details

LAFS.K12.R.1.1

Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.

LAFS.K12.R.1.2

Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.

LAFS.K12.R.1.3

Analyze how and why individuals, events, or ideas develop and interact over the course of a text.

Cluster 2 LAFS.K12.R.2: Craft and Structure

LAFS.K12.R.2.4

Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.

LAFS.K12.R.2.5

Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.

LAFS.K12.R.2.6

Assess how point of view or purpose shapes the content and style of a text.

Cluster 3 LAFS.K12.R.3: Integration of Knowledge and Ideas

LAFS.K12.R.3.7

Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.

LAFS.K12.R.3.8

Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.

LAFS.K12.R.3.9

Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.

Cluster 4 LAFS.K12.R.4: Range of Reading and Level of Text Complexity

LAFS.K12.R.4.10

Read and comprehend complex literary and informational texts independently and proficiently.

Strand LAFS.K12.SL: Standards for Speaking and Listening

Cluster 1 LAFS.K12.SL.1: Comprehension and Collaboration

LAFS.K12.SL.1.1

Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.

LAFS.K12.SL.1.2

Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.

LAFS.K12.SL.1.3

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric.

Cluster 2 LAFS.K12.SL.2: Presentation of Knowledge and Ideas

LAFS.K12.SL.2.4

Present information, findings, and supporting evidence such that listeners can follow the line of reasoning and the organization, development, and style are appropriate to task, purpose, and audience.

LAFS.K12.SL.2.5

Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.

LAFS.K12.SL.2.6

Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

Strand LAFS.K12.W: Writing

Cluster 1 LAFS.K12.W.1: Text Types and Purposes

LAFS.K12.W.1.1

Write arguments to support claims in an analysis of substantive topics or texts using valid reasoning and relevant and sufficient evidence.

LAFS.K12.W.1.2

Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.

LAFS.K12.W.1.3

Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

Cluster 2 LAFS.K12.W.2: Production and Distribution of Writing

LAFS.K12.W.2.4

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

LAFS.K12.W.2.5

Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.

LAFS.K12.W.2.6

Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

Cluster 3 LAFS.K12.W.3: Research to Build and Present Knowledge

LAFS.K12.W.3.7

Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.

LAFS.K12.W.3.8

Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.

LAFS.K12.W.3.9

Draw evidence from literary or informational texts to support analysis, reflection, and research.

Cluster 4 LAFS.K12.W.4.10: Range of Writing

LAFS.K12.W.4.10

Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

Strand LAFS.K12.L: Language Standards

Cluster 1 LAFS.K12.L.1: Conventions of Standard English

LAFS.K12.L.1.1

Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

LAFS.K12.L.1.2

Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

Cluster 2 LAFS.K12.L.2: Knowledge of Language

LAFS.K12.L.2.3

Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

Cluster 3 LAFS.K12.L.3: Vocabulary Acquisition and Use

LAFS.K12.L.3.4

Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.

LAFS.K12.L.3.5

Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

LAFS.K12.L.3.6

Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

Grade 6 Reading Standards for Literature

Content Standard(s) Assessed	LAFS.6.RL.1.1: Cite textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
Assessment Limits	Items may ask for text-based evidence to support what is directly stated in the text. Items may ask the student to find evidence to support an inference.
Text Types	Items assessing this standard may be used with one or more grade-appropriate literary texts. Texts may vary in complexity.
Response Mechanisms	The Technology-Enhanced Item Descriptions section on pages 3 and 4 provides a list of Response Mechanisms that may be used to assess this standard (excluding the Editing Task Choice and Editing Task item types). The Sample Response Mechanisms may include, but are not limited to, the examples below.
Task Demand	Sample Response Mechanisms
Select text-based support for a statement about what the text says explicitly or implicitly.	<p>Selectable Hot Text</p> <ul style="list-style-type: none"> Requires the student to select words or phrases from the text to answer questions about what the text says explicitly or implicitly. Grade 6 Reading Standards for Literature

Content Standard(s) Assessed	LAFS.6.RL.1.2: Determine a theme or central idea of a text and how it is conveyed through particular details; provide a summary of the text distinct from personal opinions or judgments.
Assessment Limits	Items may ask the student to determine a theme or central idea and how it is conveyed through key details. Themes or central ideas may be explicitly or implicitly stated in the text. Items should focus on specific details used to convey theme or central idea and not the manner in which the author handles them. Items may ask the student to summarize all or part of the text.
Text Types	Items assessing this standard may be used with one or more grade-appropriate literary texts. Texts may vary in complexity.
Response Mechanisms	The Technology-Enhanced Item Descriptions section on pages 3 and 4 provides a list of Response Mechanisms that may be used to assess this standard (excluding the Editing Task Choice and Editing Task item types). Items should not focus on dictionary-based word meanings but should focus on how a word or phrase functions within the context of the passage. Items should focus on words and phrases that have figurative or allusive meanings central to the meaning of the text rather than isolated, incidental vocabulary. Items may ask about words with discrete context clues in close proximity or words whose meaning is conveyed more implicitly throughout the passage. Items may ask the student to employ various strategies to explore word meaning, including the use of Greek or Latin affixes and roots. Items may require the student to use word relationships to determine the meanings of individual words. Items may ask the student to analyze figurative or connotative meanings of words.</p>

Grade 6 Reading Standards for Literature

Content Standard(s) Assessed	LAFS.6.RL.2.5: Analyze how a particular sentence, chapter, scene, or stanza fits into the overall structure of a text and contributes to the development of the theme, setting, or plot.
Assessment Limits	Items may ask the student to analyze the purpose of specific sentences, scenes, or stanzas. Items may ask the student to consider the effect of a particular sentence, scene, or stanza on the overall structure and meaning. Items should focus on how specific structural elements create a comprehensive picture of the theme, setting, or plot.
Text Types	Items assessing this standard may be used with one or more grade-appropriate literary texts. Texts may vary in complexity.
Response Mechanisms	The Technology-Enhanced Item Descriptions section on pages 3 and 4 provides a list of Response Mechanisms that may be used to assess this standard (excluding the Editing Task Choice and Editing Task item types). The Sample Response Mechanisms may include, but are not limited to, the examples below.

Grade 6 Reading Standards for Informational Texts

Content Standard(s) Assessed	LAFS.6.RI.3.8: Trace and evaluate the argument and specific claims in a text, distinguishing claims that are supported by reasons and evidence from claims that are not.
Assessment Limits	Items may ask the student to trace or evaluate the argument or claims in a section of the text or throughout the entire text. Items may focus on distinguishing arguments or claims that are supported with evidence from those that are not. Items should not exclusively ask the student to identify the argument or claims in a text.
Text Types	Items assessing this standard may be used with one or more grade-appropriate informational texts. Texts may vary in complexity.
Response Mechanisms	The Technology-Enhanced Item Descriptions section on pages 3 and 4 provides a list of Response Mechanisms that may be used to assess this standard (excluding the Editing Task Choice and Editing Task item types). The Sample Response Mechanisms may include, but are not limited to, the examples below.

Grade 6 Reading Standards for Informational Texts

Content Standard(s) Assessed	LAFS.6.RI.3.9: Compare and contrast one author’s presentation of events with that of another (e.g., a memoir written by and a biography on the same person).
Assessment Limits	Items may ask the student to analyze similarities and differences in how authors present ideas or events. Items may require the student to use key details to explain how authors are similar or different in their approach. Items should not simply ask the student to identify common events. Items should be developed with text sets focusing on the same events or ideas.
Text Types	Items assessing this standard may be used with two or more grade-appropriate informational texts and other media. Texts may vary in complexity.
Response Mechanisms	The Technology-Enhanced Item Descriptions section on pages 3 and 4 provides a list of Response Mechanisms that may be used to assess this standard (excluding the Editing Task Choice and Editing Task item types). Text-Based Writing Stimulus and Prompt Guidelines
Writing Prompt Specifications

Overall Task Description

Students will read a stimulus about a single topic. A stimulus consists of several texts written on a single topic. The stimulus should consist of informational or literary fiction or nonfiction texts and may cover a wide array of topics. After reading the stimulus, the students will respond to a writing prompt in which they will provide information on a topic or take a stance to support an opinion or argument.

Stimulus Attributes

The complexity of the texts used as stimuli should be accessible for the applicable grade. While this is primarily a writing test, a grade-appropriate level of literacy is required. In choosing the text(s), qualitative and quantitative dimensions of text complexity must be balanced by the task considerations required of the reader. Graphics such as infographics, photographs, tables, and diagrams may be included with the stimuli. The graphics used, however, must be purposeful to the task and should supplement the student's understanding of the topic. During the text review process, Florida educators use professional judgment and experience to determine whether the reading level of each selection is suitable for the grade level.

The stimuli for the **informative/explanatory** prompts should maintain a clear topical connection but may address diverse concepts and ideas. Stimuli for the **opinion/argumentative** prompts should present opposing points of view. Each point of view should be equally represented so that a student may take either side of a position. Thorough and convincing support for the controlling ideas must be evident in all stimuli.

Texts used as stimuli should be interesting and appealing to students at the grades for which the selections are intended. They should be conceptually appropriate and relevant and should reflect real-world settings and events that are interesting to students and are not limited to classroom or school-related situations. Texts with controversial or offensive content should not be included. Confusing or emotionally charged subjects should also be avoided. References to trademarks, commercial products, and brand names should be checked by the contractor's legal department for permission to use. If there is any question about the accuracy of content, the Florida Department of Education (FLDOE) may require at least two additional sources to verify the information in the text.

Text-Based Writing Stimulus and Prompt Guidelines

The stimulus will consist of two to four texts. The approximate combined word count of the text sets is listed in the table below.

Grade Level	Minimum Word Count	Maximum Word Count
6	1000	1600

The stimulus will be presented along with a writing prompt that asks students to write an essay about the topic. The students will be required to synthesize information from the text sets and must cite specific evidence from the texts to support their ideas.

For the **informative/explanatory** writing prompts, students will be required to synthesize and analyze ideas from the stimuli to develop and support a controlling idea.

For the **opinion/argumentative** writing prompts, students will be required to synthesize and analyze ideas and evidence from stimuli. They will use these ideas to present and support an opinion (grades 4–5) or to argue and support a claim (grades 6–10).

Assessed Standards

The Florida Standards Writing Assessment will assess the following standards from the appropriate grades:
